Top 10 reasons
to love Polycom Trio

Polycom Trio™

Smart conferencing for all your meeting rooms.

Marrying legendary voice quality with powerful video and easy content sharing, Polycom Trio transforms conference rooms of any size into hassle-free spaces for team collaboration.

Reason #10

Your old phone sounds like the order taker at a fast-food drive through.

Polycom Trio™ has the best audio of any conference phone, with full wideband HD voice, an integrated bass reflex port for rich, room-filling sound and Polycom NoiseBlock™—automatically muting extraneous background noises like keyboard tapping sounds.

Reason #9

Your boss has never forgiven you for mistakenly ending that important client call when you accidentally hung up instead of putting them on mute.

Polycom Trio includes many thoughtful touches, including illuminated mute buttons on each of its three legs that make it the easiest conference phone to use. Yes, it can even save you from yourself. The mute button is nowhere near the hang-up button.

Reason
#8

The world is better in color.

Polycom Trio has a full-color 5-inch touchscreen interface that's as intuitive as your favorite smartphone or UC client.*

Reason
#7

You have better things to do in the first five minutes of a meeting than to spend it figuring out how to join the meeting.

Polycom Trio integrates with your calendar with a one-touch-join button that is fast and easy.

* Currently optimized for Microsoft Room Systems, Skype for Business and Zoom Rooms.

Reason
#6

Bring your own device—enough said!

Polycom Trio plays nice with your personal devices. Pair wirelessly for mobile phone and soft-client audio calling or for sharing rich content to really drive your point home.

Reason #5

You want the freedom of choice.

Polycom Trio supports your business needs with its unique hybrid registration feature. Simultaneously register more than one voice or UC platform—**THIS** is a game-changer!

Alcatel-Lucent
Avaya
BroadSoft
BlueJeans
BT
Cisco CUCM
Cisco Webex
Comcast
Metaswitch
Mitel
NetSapiens
Ribbon
RingCentral
Skype for Business
Unify
Vonage
Zoom
8x8

Reason #4

Affordability, anyone?

Polycom Trio gives you affordable enterprise-grade collaboration for voice, video and content sharing that's all-inclusive and won't break the bank.

Reason #3

## Not all rooms are created equal.

Select the right components for every space, adding tracking cameras, ceiling microphones or wireless content and annotation as needed depending on the requirements of each unique meeting space.

Reason #2

Your IT department needs to deploy business tools that work for everyone and won't give them headaches.

Polycom Trio is quick to deploy, provision and manage with Polycom® RealPresence® Resource Manager, and will integrate with your existing call platform.

Not sure if your platform will change? No problem. Polycom Trio supports hybrid call platforms. We mentioned this in reason #5 but it's *that* important!

Reason #1

Polycom Trio is so much more than a conference phone.

It makes audio calls, video calls AND shares content. That's three reasons...after all, it's called Polycom Trio!

For the past 25 years, Polycom has set the standard for conferencing and it's our mission to deliver solutions to make work easier, both now and in the future. Check out the Polycom Trio family of solutions today.
